March 1, 2006

To: All Selkirk Customers

Subject: **Selkirk Americas, L.P. Sold to Tomkins PLC**

Effective March 1, 2006, Selkirk Americas, L.P. (“Selkirk”) has been purchased by Tomkins PLC. Tomkins is a world-class global engineering and manufacturing group with market and technical leadership across its two business groups; Industrial and Automotive and Building Products. Selkirk will operate as a separate company within the Building Products Division of Tomkins PLC.

We at Selkirk are excited about the many opportunities that will be available under Tomkins ownership and guidance. Selkirk will retain its current structure and will be operated separately from other Tomkins subsidiaries. Further, Selkirk will continue to offer all of its current brands of high quality products and our sales force and customer service personnel will remain unchanged.

This is an opportunity for Selkirk and our customers throughout Canada and the United States to be associated with an industry leader that believes in Selkirk and is dedicated to seeing it grow and prosper. We are very excited about Selkirk’s future as part of the Tomkins organization.

Best Regards,

Brooks Sherman  
Chief Executive Officer
